

What Makes Us Unique?

Jazzelle's Dance Academy was formed for the love of dance, the love of teaching dance and the love of constantly learning new things about dance.

We believe that the love of dance doesn't discriminate so we shouldn't either. The greatest thing is that you can be anyone, no matter what age, height, and body type.

We pride ourselves in finding talent everywhere and giving that talent a medium to grow into something amazing.

About Giselle: The Owner

Jazzelle's Dance Academy was established on an extended dream. The dream to be a dancer and to teach others how to dance. Giselle's strong family values come from being a wife and a loving mother of two. Not only does Giselle have 20 years of dance experience with very prestigious companies, she has also been teaching dance for nine years and preschool for seven.

Program Goals

The overall goal of the program is to allow growth, improvement of technique, learning and most importantly, having fun while gaining self-esteem.

The foundation on which Jazzelle's Dance Academy was built upon was strong with the knowledge and experienced gained from working with children for many years. We allow children to express themselves through dance and movements while training them to be successful dancers.

Dance allows a child to realize who they are and who they have the potential to be. Other goals are to increase flexibility, agility, coordination, concentration and memory.
